PARTIAL LIST OF PRIZE WINNERS AT THE COUNTY FAIR

The Judges' Task Was Anything but Easy in Some of the Departments in Which Meritorious Exhibits Were Numberous—The Awards Rade in Some

The judges in some of the departments at the County Fair completed their labers early Wednesday afternoon, and turned in their books to the Secretary's office in time for the compilation of the following abstract of their awards. In other departments the judges were still hard at work, late in the afternoon, and the publication of their awards is therefore necessarily deferred.

QUEEN REGENT SIGNS THE PROTOCOL

Rivers and d'Almenas Abuse Euch Other-A Duel Expected-Frared That United States Will Demand Money Indemnity.

MADRID, Sept. 15 .- The premier, Senor Sagasta, has obtained the queen regent's signature to a decree proroguing the cortes, and with it ended a stormy session of the senate.

General Primo de Rivera had demanded an inquiry into his administration of the Philippine islands, and in so doing he said the attacks of Count d'Almenas were only "fir for the mouth of a miserable slanderer." Count d'Almenas was endeavoring torreply when Senor Sagasta read the decree proroguing the

Count d'Almenas and General Rivera, separately, approached the president in a hostile manner, and a duel is expected.

Premier Sagasta afterward read the decree in the chamber of deputies. It is expected that the Spanish peace commissioners will be appointed without delay.

A painful impression has been caused here by a statement made by The Pais, saying that the United States intends to demarid \$20,000,000 indemnity in behalf of American citizens who have suffered through the insurrection in Cuba. The Spanish peace commissioners will strongly oppose this, it is claimed, but fears prevail that the United States will become pitiless and press its advantage to the utmost.

The queen regent signed the protocol bill last evening.

The government had intended the cortes to sit until an indemnity bill for the suspension of the constitutional guarantees had been passed, but the threatened agitation on the part of General Weyler and others, together with the evidence of divisions in both the Liberal and Conservative parties, convinced Senor Sagasta of the advisability of closing down debates which would have hindered the free progress of the peace negotiations.

The cortes will be next convoked to ratify the final treaty of peace.

It is rumored that Senor Peroio, Senor Crespo and Senor Lara, members of the chamber of deputies, started for the French frontier late last evening.

Spain Doesn't Want Thilippines. LONDON, Sept. 15 .- The Madrid cor-

respondent of The Daily Mail says: "The politicians for the most part favor an entire renunciation of the Philippines in exchange for economic ad-

vantages. "The government closed the cortes yesterday because it feared complications through the publicity a continuance of the session would give to the acts of the Spanish generals."

The Standard savs editorially this morning, after congratulating Senor Sagasta and the government upon "having survived a difficult period successfully," that the great danger is now

"Spain," it continues, "appears reconciled, knowing that, whatever differences may arise in the peace negotiations, she is bound to yield.

"As to reports that indemnity will be demanded, the United States knows that no money can be got out of Spain, and is, therefore, unlikely to make such a demand seriously. If the United States secures Luzon, it is most probable that Spain will give up the remainder of the islands as a useless incumbrance."

Natives Evacuate Manila Suburbs. LONDON, Sept. 15 .-- The Manila correspondent of The Times, telegraphing Wednesday, says:

"Fully 15,000 insurgent troops evacuated the suburbs yesterday. The Americans gave a parade and granted full military honors. Perfect harmony prevailed, and the natives were evidently delighted at the opportunity for a public display of the efficiency of their troops in drill.

South American Mountain Climbing. LONDON, Sept. 15.—The Daily Chronfele this morning says it has received a dispatch from Sir William Martin Conway, the celebrated explorer, dated at La Paz, Bohvia, announing his successful ascent of Mount Illiman, one of the loftiest mountains of the Bolivian Andes, East Cordilleras, about 25 miles east of La Paz Sir William asserts that the ascent of 22,500 feet occupied five days. On the fourth day the Indians employed to carry the expedition's baggage bolted. The party suffered great weakness during the last hour they were on the summit, but no actual illness. Sir William describes the view from the top as "astounding"

CORTES PROROGUED. A CUBAN MANIFESTO

Sagasta Chokes Off a Stormy | Provisional Government Explains Its Attituda.

EXPECTS ABSOLUTE INDEPENDENCE.

Relies on the Magnanimity of the Luited States and Its Antebellum Promises-Our Assistance Gratefully Regarded.

SANTIAGO, Cuba, Sept. 15. - The council of the so called provisional government of the republic of Cuba, represented by Senor Bartolome Masso, president, Senor Mendez Capate, vice president, and Senor Font, Senor Aleman and Senor Moreno de la Torre, secretaries, met at Santa Cruz on Sept. l and formulated a manifesto to the Caban people, with an order to the miltary commanders of the Cuban army, both of which have been promulgated.

The manifesto, which is an elaborate document, touches on the history of the movement for Cuban independence and the principles upon which the Cuban people have fought for their liberty. It proceeds in part as follows:

The peace preliminaries have been signed, and the government of the United States has imposed upon Spain an obligation to renounce all her rights of sovereignty over the island of Cuba and to evacuate the territory immediately. The cessation of hostilities has also been agreed upon.

. Though the principal object of our revolution has been obtained—that is, the destruction of Spanish dominationthe work of this council is not yet at an end, for the Cuban republic, the ideal for which we have fought, has not yet been constituted. Now that hostilities have ceased and Spain has renounced her sovereignty, it is the duty of this council to set before the Cuban people the feelings and purposes of the men who made the revolution.

"We always felt confident that hrough our own perseverance we would n the long run destroy Spanish domination but we must acknowledge that an indefinite prolongation of the strugtle would have annihilated the little rat was left of our wealth and popuation. The entrance upon the field of a powerful and decisive factor, upon which we have always relied and toard which the bearts of all Cubang have always turned, has out an end to te terrors of war, to the benefit of all Dedicornical

"Ti " prempt solution we must acrorriedge we could never have obwinca. It is proper to acknowledge the widont 'ruth. That is the best title in United States has to our gratitude Te were abandoned by the world some nations ignoring us through selfishness. hers, ignorant of our real condition. ensidering us an obstinate and unrovernable people because we did not ecert the cajoleries and flatteries with which Spain tried to soothe our just an-

"This was our situation when the peoile of the United States, their governnent and congress came to our rescue and took upon their shoulders the task of delivering us at once from an unbearthle yoke, as our sufferings could not e endured or permitted longer. They ive accomplished their programme allhantly. What is more, they have therated in one way or another from he rule of Spain all peoples oppressed y her. The liberation is definite and Spain has been expelled ···this bemisphere.

"We are grateful. In nations as well s in individuals gratitude is ennobling. is we begin now our national life we, nore than any other people, must be calous of our national honor. It is agrefore the duty of this council to exagin to the people of Cuba what, in its finion, are our duties toward the United States and toward ourselves and "but are the rules that ought to direct ur cerduct.

"When after a long struggle the Unitd States congress recognized the righ of the people of Cuba to be free and ndependent and ordered the Spanish prices to withdraw from the island, no fulian government was recognized, but he one we have constituted, though not ecognized, was not opposed and has not been opposed. No steps have been sken to dislodge it from the place there it exercised its functions, nor has been considered an illegitimate auborrty which events have dssolved or estroved for the good of the people of

'It could not be otherwise. The United Itales could not interfere in our strugtor the sake of what our enemies a ht consider a political faction. The onerican government could intervene or the benefit of the whole people of 'uler a part of whom, being under 'ranish rule, was not free to express a urpose or a preference. The intention f the United States was that as soon is the obstacle of Spanish rule had been moved the whole Cuban people should hoose a government that would shape he festinies of the island.

"The people of the United States have .ll along appreciated the fact that the aforty of the people of Cuba is in greement with our principles, for the potto of the United States government has been the same as our own-absoute independence for Cuba. Under these conditions the Americans could not take a hostile attitude toward us or onsider our authority illegitimate and hazinful to the welfare of the Cuban

iéople. These considerations have convinced is that we should not dissolve and that the powers we have received from an issimbly elected by the people under irms should not vanish. On the contrary, we feel that we should remain as a nucleus and guide for those who have vested such power in us,

"We have therefore decided to call together another ascembly, which will determine our future course."

to the military college, where he was a student at the outbreak of the Zulu war. He then rejoined his regiment as a lieutenant and participated in the victory at Gingindhlovu, as well as the relief of Ekowe. After the Zulu war the officer returned to college and completed his course, when he was assigned to duty in South Africa during the Boer war. His good service in this campaign led to his detail as commander of the mounted infantry regiment in the Egyptian campaign of 1882, and his gallantry and military ability at Alexandria and Tel-el-Kebir won him mention in the dispatches, a brevet as major, a medal and two decorations. After five years in Egypt be returned to England, where he was on duty at headquarters and later commanded a regiment of mounted infantry. In 1893 he was given the command of the military forces of New South Wales, which he held until 1896 when he was appointed assistant adjutant general for Ireland Col. Hutton married, in 1890, Eleanor, the daughter of Lord Charles Paulet.

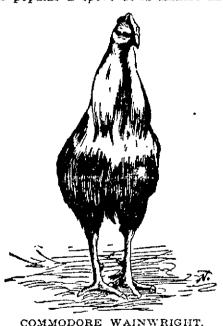

A VALUABLE ROOSTER.

Commodore Wainwright, a Texas Fighting Bird, Sold for One Thousand Dollars.

One thousand dollars for a chicken seems a pretty big sum, even in New York, where rare birds bring good prices. But that is the amount, in clinking gold, which exchanged hands recently in Burleson county, Tex., for the fighting cock Commodore Wainwright.

It was after the feathered pugilist had won in 27 hard-fought mains this season. His spurs were dripping with the blood of his last victim, and his close-cropped feathers were ruffled But as the crowd of enthusiastic money winners gathered around and cheered him he raised a lusty crow that plainly spoke his first name--At-a-bu-al-pa.

Down in Texas the cockpit is almost as popular a sport as in Mexico and

COMMODORE WAINWRIGHT. (A Texas Fighting Bird Which Recently Sold for \$1,000)

Spanish countries. So when Commodore Wainwright had won victories at Laredo, San Antonio, Caldwell and Hallettesville he was the hero of althat region. He had carned in this campaign \$5,000 for his owner.

No one was a bit surprised when Don San Diego Montemayo, sportsman and chicken fancier, offered \$1,000 for the cock at Gen. Purdoe's ranch. It was thought a small bid, and the only condition on which the owner of the fow! would accept it was that the cock should be used only as a breeder and never appear in the pit again.

This is said to be the highest price ever paid for a rooster in Texas. though it would not be so regarded in Mexico, where victorious birds have often been exchanged for herds of cattle, ranches and silver mines.

SHAFTER'S REPORT.

Official Account of Santiago Campaign.

NO CREDIT GIVEN TO GENERAL MILES

Words of Praise For Rough Riders. Wheeler Commended - Officers Named For Brevet Premotions. John Jacob Astor on the List.

WASHINGTON, Sept. 15. - General shafter's official report of the Santiago tampaign, which was submitted to the war department yesterday, throws litsle new light on the operations of the army under his command.

The report consists almost entirely of a narrative of the history of the expelition from its incorporation on May 30, when Admiral Schley first reported the presence of the Spanish fleet in the harsor of Santiago. He refers to the loss of one of the two barges which were being towed to Santiago as very serious, as it delayed the debarkation of the army and the supplies. The debarkation is described, and his choice of Baiquiri as the landing place and the approach to Santiago through Siboney and Sevilla is defended as the only feasible

Subsequent information and results, he says, confirmed his judgment.

Of the battle of La Guasima, in which Roosevelt's Rough Riders bore such a conspicuous part, General Shafter says: "The engagement had an inspiring ef-

lect upon our men and doubtless correspondingly depressed the enemy, as it was plainly demonstrated to them that they had a fee to meet who would advance upon them under a heavy fire defivered from intrenchments. General Wheeler, division commander, was present during the engagement and reports that our troops, officers and men, fought with the greatest gallantry. This engagement gave us a well watered country farther to the front in which to entamp our troops.'

General Shafter goes on to tell of the difficulty encountered in landing supplies and of his plans for the assault on the Spanish intrenchments, and in this connection gives his reasons for not making more thorough preparations for ransporting supplies to advantage. He

"These preparations were far from what I desired them to be, but we were in a sickly clireate. Our supplies had to be brought forward by a narrow wagpn road, which the rains might at any time render impassable; fear was entertained that a storm might drive the versels containing our stores to sea, thus separating us from our base of supplies, and, lastly, it was reported that General Pando with \$,900 re-enforcements for the enemy, was en route from Manzanillo and might be expected in a few days. Under these conditions I netermined to give battle without de-

His account of the advance on the Spanish position and the battle which ensued confirms what has already been printed, that the severe fighting which the center of his line became engaged in prevented him from extending his fine to the right, as had been intended.

After referring especially to the gal-(ant conduct of Brigadier General H. S. Hawkins in the battle General Shafter

"In this fierce encounter words fail to do justice to the gallant regimental commanders and their heroic men, for, while the generals indicated formations and the points of attack, it was, after all, the intrepid bravery of the subordinate officers and men that planted our colors on the crest of San Juan hill and drove the enemy from his trenches and blockhouses, thus gaining a posttion which scaled the fate of Santiago.

"In this action on this part of the field most efficient service was rendered by Leutenant John H. Parker, Thirrounth infantry, and the Gailing gun detachment under his command. fighting continued at intervals until nightfall, but our men held resolutely to the most on gained at the cost of so much beed and toil.

"I am greatly in lebted to General Whe ter, who returned from the sick list to duty during the afternoon. His che rfuln is and augressiveness made uself felt or this part of the battlebeid, and the information he furnished to me at various stages of the buttle proved to b · most ve ful.

"My own health was impaired by overerer on in the sun and intense heat of the day before, which wrevented me from participating as actively in the hattle as I desired, but from a hill near my headquarters I had a ceneral view of the battlefield, extending from El Carcy on the right to the left of our lines on Sen Juan hill "

The subsequent military operations and the negotiations for the surrender of the Spanish forces are narrated in detail. There is no mention in the reet of any friction between himself and General Miles, the only reference to the major general commanding the grown being in this paragraph:

"July 12 I informed the Spanish commender that Major General Miles, comcopposit chief of the American army, had just arrived in my camp and reerest d him to grent us a personal intorview on the following day. He remed he would be pleased to meet us. The interview took place on the 13th, and I informed him his surrender only could be considered and that as he was without he no of except he had no right

to continue the fight." It is noticeable that General Shafter takes the credit for delivering the ultimotum to Ceneral Total which General Miles has said he delivered, and at no place in the report does General Shafter indicate that General Miles was more

than a spectator. In closing his report General Shafter dwells at length on the difficulties and obstacles which he had to overcome and submits these recommendations for pro-

motions: E. J. McClernand, lieutenant colonel and adjutant general, United States army, to be brevetted colonel for gal-tentry in the face of the enemy on July 1 and 2, and to be brevetted briga-

Hone May Be Embassador.

WASHINGTON, Sept. 15.-It is understood that the president has invited Sepator Hoar, the senior senator from Massachusetts, to accept the London mission, to succeed Mr. Hay. While a definite response has not yet been received it is gathered that the senator will probably decline on the ground that he would be more serviceable to the country in his present position, while the delicate health of Mrs. Hear renders a change of habit and climate unadvisable at her time of life. It was rumored that in the event of the acceptance of this embassy by Senator Hoar. Secretary Long would be a candidate for the succession as senator from Maspachusetts. There is reason to believe that the secretary has made no movement in that direction, but is entirely content with his post.

Connecticut Republican Convention. NEW HAVEN, Sept. 15.-The biennial state convention of the Republicans of Connecticut, called for the purpose of neminating candidates for the various state offices, assembled in the Hyperion theater last night. The session was very brief, occupying but a little over an hour, and was devoted solely to the transaction of preliminary business. Very little enthusiasm was displayed, the delegates evidently not having been aroused as yet to the point where the excitement predicted for this convention placed itself in evidence. With the appointment of committees on credentials, permanent organization and resolutions and the announcement of meetings of these committees and the county caucuses, the convention adjourned,

to meet this morning at 10 o'clock. The Fall River Strike.

FALL RIVER, Mass., Sept. 15 .- The striking weavers of the Border City coton mills met yesterday afternoon in Brightman hall to discuss their trouble. They seemed to be very indifferent as to now long the strike will continue. The veavers of No. 2 mill were paid their hird week's strike allowance by the mion's secretary. The mills are still losed, with no prospect of a resumption f operations for some time.

WEST INDIAN HURRICANE. Scent Less of Life In St. Vincent. Burbadus and Other Islands.

ST. THOMAS, Danish West Indies Sept. 15,-According to the latest reports from St. Lucia, the storm which broke upon the island Sunday night developed almost unprecedented violence, being accompanied by a tidal wave and tremendous rains. Numerous landslides were caused, and many houses, bridges and cocoa estates have been destroyed. At least 12 lives have been

ost. Guadeloupe, the French island in the Leeward group, has experienced very heavy weather. Nineteen deaths are reported, and there have been destructive landslides.

A boat from the island of St. Vincent, 100 miles west of Barbados, arrived last night at the island of Grenada and reports that St. Vincent has experienced the most violent and destructive cyclone ever known there. Kingston, the capital of St. Vincent, is totally destroyed. It is estimated that 300 lives have been lost in that island and that 20,000 people are homeless. The bodies of the dead are being buried in trenches. Thousands are starving or being fed at the public expense.

The amount of property destroyed in St. Vincent cannot as yet be estimated. Every small house is down, and many large ones have been destroyed. The demolished buildings include churches, stores and almost all the estate buildings. Three large ships are ashore on the windward coast, and many smaller vessels are stranded.

No information is obtainable here as to the results of the threatened hurricane of Saturday night last. Communication is cut off, and the worst is

STATE REPUBLICAN CLUBS. Reorganization Perfected-McKinley and Black Indorsed.

SARATOGA, Sept. 15.-The reorganization of the League of Republican Clubs of the state of New York was perfected yesterday afternoon, and the following officers were elected: President, Frederick Easton of Albany; treasurer, James S. Barcus of New York; acting secretary, John W. Totten. The executive committee embraces one from each congressional district. A vice president was also appointed for each county to act as president of the local club. The constitution adopted states among other things that "the object is to promote in every legitimate way the success of the Republican party, its principles and candidates;" also that "the league shall not be used in any way to further the interests of any candidate for office previous to nomina-

tion." Resolutions were adopted affirming the principles of the national convention at St. Louis and indorsing McKinley and Black. The principal address was made by General Stewart L. Woodford, minister to Spain. The convention then adjourned.

ITALO-COLOMBIAN TROUBLE.

Diplomatic Relations Reported to Be-Interrupted.

WASHINGTON, Sept. 15,-A dispatch bearing on the diplomatic relations of Italy and Colombia has been received by Senor Rengifo, the charge d'affaires of the latter country here. It is rather bricf, simply containing the statement by Minister of Foreign Affairs Paul that "diplomatic relations with Italy have been declared interrupted."

It is pointed out that there is a slight difference in the wording of the dispatch from Colombia and that from Rome, the former saying that the relations were "interrupted," while the latter says they have been "ended." Senor Rengifo has no reasons to suggest for the interruption of relations between the two countries, and in the absence of fuller information he declines to make any comment upon the reports. He has asked his government for more specific information on the subject.

The suggestion is made here in well informed querters that in all probability Colombia has taken the initiative in this matter and not Italy, as stated

in the Rome dispatch. A Sword For Ensian Powell.

BRIDGEPORT MURDER

A Possible Clew Found In New Haven.

THE LAUNDRY MARK IDENTIFIED.

The "G. 51" on the Undergarments Weapped Around Parts of the Victim's Corpse May Implicate a New Haven Midwife.

NEW HAVEN, Sept. 15 .-- An important clew to the Bridgeport murder mystery was discovered in this city yesterday afternoon. On one of the pieces of a man's underclothing found in one of the packages which inclosed a portion of the victim's body the Bridgeport police discovered a laundry mark -"G. 51." It was said last evening at the office of the Troy laundry in Center street that this was the mark given by the laundry to the clothing of Nancy Guilford, who until recently had an office in this city. Mrs. Guilford is the wife of Dr. Henry F. Gili, who formerly had an office at 548 Chapel street.

Dr. Gill was arrested last spring on the charge of performing an operation on a young girl who resided in Cheshire, a village near this city. His wife, who went under the name of Mrs. Guilford, had her office at 9 Wooster place. She also was arrested. Dr. Gill stood trial and was sentenced to a term in the state prison. Mrs. Guilford forfeited her bond and left the city.

Recently Mrs. Guilford appeared in Bridgeport. The police there at once began to watch her. She nevertheless rented a house and placed her advertisement in the Bridgeport newspapers. As soon as the dismembered body was discovered in Yellow Mill pond the police began to watch Mrs. Guilford's house. Since the discovery of the body Mrs. Guilford has left Bridgeport. The police, however, say they know that she is in New York state and can find

The identification of the laundry mark is unmistakable. When Mrs. Guilford lived in this city, the mark "G. 51" was used on her clothing, and also on that of her husband, Dr. Gill. All their laundry was sent to 9 Wooster place, which is in the same square in which Dr. Gill had his office. The fact that all their clothing was so marked and the fact that Mrs. Guilford took her husband's effects when he went to state prison, shows that it is possible that Mrs. Guilford had some of her husband's clothing in Bridgeport. The letter "G" and the number "51" form a mark that is not likely to have been duplicated by any other laundry. The handwriting of the laundry mark is also like that of the clerk in the Troy laundry who marks all clothing. The police consider the

identification complete. Detective Arnold of Bridgeport came to this city Tuesday with the portion of the underclothing bearing the laundry mark, and it was identified by the Troy laundry employees yesterday. The police have endeavored to keep the visit of Detective Arnold a secret, and have cautioned all the parties concerned to keep silent.

Mrs. Guilford was twice arrested here for performing operations and was constantly being watched by the police. The Bridgeport police have information that on last Friday night a young man drove to Mrs. Guilford's house with a horse and wagon. He secured the horse and went into the house. When apparently very ill and was assisted by the man and the older woman. The three entered the wagon and drove away. Mrs. Guilford came out of the house and watched the wagon as it disappeared.

Colon Can't Be Saved.

WASHINGTON, Sept. 15.—With the detachment of Commodore Watson from the command of the eastern squadron all work in connection with the raising of the Spanish cruiser Cristobal Colon will cease. Lieutenant George P. Blow, who has had special charge of the wrecking operations under Commodore Watson, has reported that it is impossible to save that vessel. Naval experts say that as the Colon has been under water for more than two months the salt water has probably injured her machinery and that if she is allowed to remain in her present position any length of time it is doubtful if she will be of any great value even if raised.

The Investigating Committee. WASHINGTON, Sept. 15.-It is said that six members of the war department investigating committee have formally accepted and that when another appointment has been made and acceptance is assured the investigation will begin. Those who are understood to have consented to serve are: Evan P. Howell of Atlanta, former Minister Charles Denby of Indiana, Colonel James A. Sexton of Illinois, D. C. Gilman, president of Johns Hopkins university, Baltimore: Dr. W. W. Keen of Philadelphia and General Grenville M. Dodge of New York.

CHARLES E SCHULTZ

George W. Ray, of Notwich, has been renominated for Congress by the Republicans of the Twenty-sixth District, composed of Delaware, Chennego, Broome, Tioga and Tompkins counties.

The Republican Congressional Campaign Committee at Washington bas been studying the returns of the Vermont and Maine elections, and they cause it. serious alarm. The figures plainly show that the drift of sentiment is against the Republican party, and the campaign committee now lears the loss of the next House of Representatives, which a few months ago seemed safe for the Republicans. Alger's mismanagement of the War Department is the reason assigned by Congressmen for the falling off in the Republican vote, and they are becoming very insistent in their demands on the President that he get rid of this Jonah. or freshen him up with a coat of whitewash. But as regiment after regiment goes home, and the men tell in every locality the story of the needless hardships they have undergone, the sentiment against Alger and Algerism grows and deepens, and it cannot be allowed. The people hold Alger responsible for the shameful mi-management of his department, and as the only way of reaching him will strike at the party responsible for his continuance is an office for which he has proved himpseldge conspicuously uefit.

One of the Plansvivania regiments, quite recently ordered from camp at Bull Run, Ve., to Middletown, Pa., was caught in a heav, rain storm and had to wade across a suddesly awollen atream. When the men reached the op-

posite bank they found themselves sheeless; the soles of their shoes had dropped off, they being of paper and merely glued fast. Who inspected the shoes?

If the Hawaiian Islands were connected with the outside world by cable, it would be easy to understand why they are being made a reserve station from which reinforcements can be dispatched to the Philippines: but, isolated as the islands are from the rest of the world, the only gain in time, should an emergency arise, would be the day or two that might be saved by sending a fast dispatch boat to the islands, and even this small gain in time would be of no account unless a fleet of transports was maintained at the islands, which, swing to the scarcity of vessels in the Pacific, is not possible.

Mrs. C. Skinner, of Cortland street, a neldier's widow, sent to Thrall Hospital, Wednesday, twenty-four handkerchife, on each of which was written the name of one of the sick soldiers. When the handkerchiefs were distributed among the soldiers they were most effusive in their expressions of gratitude for Mrs. Skinner's thoughtful kindness.

A Jealous Uister County Man's Crime.

No Priction Between the Spanish and United States Cuban Commission. BY ASSOCIATED PRESS.

HAVANA, Sept. 14.-Rumors to the effect that strained relations exist between the Spanish Commission and the United States' Cuban Evacuation Commission are absolutely unfounded. There have been little incidents but no rea hitches.

For instance, when the United States transport with the American commission on board arrived here, she did not fire a salute but later she fired the regulation salute when visited by the British consul, who has been acting for the United States. This action was commented upon at the Palace in consequence of which explanations were exchanged, with the result that the Resolute on Monday morning flew the Spanish colors in honor of the birthday of the Princess of the As-

THE ORANGE COUNTY FAIR

THE THIRD DAY OF A VERY SUC-CESSFUL EXHIBITION.

Out of Town Victors Harly on the Grounds-The Low State of Administra Pieges All-Much interest to the Parm, Cardon and Stock Exhibits-Almost a Gerap-Winte Monnital Pations on the Grounds-Scenes, Incidoubt and interesting Happenings.

The early arrivals on the Fair grounds. to-day, were mainly people from out of town. They came is on all the trains and the trolley cars brought many from the eastern part of the county who had driven to Goshen and left their rigs there. Wagons lined the roads leading to the grounds and at times there were blockades at the gate, so closely did the wehicles follow each other. Every wagen carried from two to ten people and they gave up the price of admission without a murmur, which is in striking contrast with last year when every man kicked against the fifty cents admisson fee.

There are very few hicycles on the grounds. The short-trousered fraternity is well represented but they have left their wheels up town.

The early visitors, to-day, being nearly all from the farms, the products of fertile soil and the stock exhibits held their attention all the morning. The 800 pound hog and the State Hospital's big Holstein bull were objects of special interest.

There was one man who persisted in going into the stall beside an ugly looking bull, and argument started between him and a stable hand, and for a time it looked as if gore would be spilled. The crowd which gathered urged them to fight and stop talking, but the sun came out and a woman remarked: "What a pair of big babies," and the fun was over.

The fakirs, peddlers, etc., bave reaped a barvest, this morning. Anybody with auything to sell had no trouble to find customers. The dropping peanut shells could almost be heard on the grass so rapid was the consumption of this fair ground favorite.

The crowd came steadily and at 11 o'clock 2,500 paid admissions had been received. LA mong the visitors was a large party of women from the State Hospital's convalescent wards in charge of Supervisor Cook and a corps of attend-

. The Chester band was on the ground early and gave selections at short inter vals in very commendable style.

The grapes exhibited have been donated to Thrall Hospital by the managers, and Assistant Superintendent Crist was sent to notify the ladies that they could have them after 4 o'clock, to-morrow.

A lady thought that she lost her pocketbook in an eating pavilion this morning, and the loss was reported to Special Officer Hirst, who, seeing that there were no sharpers about, assisted her in making a search for it. It was found in the folds of her silk parasol.

S cretasy Morrison has a great pull branch on his coat, this morning, which had been sent him by an unknown

The working out of the borses this morning draw many to the track. The track is in splendid condition and the fast ones make a fine showing.

There are two speed events on the card for to-day. There are six entries in the 2:40 class trot, for a purse of \$150 and there are nine entries in the gentleman's toad race for a purse of \$100.

The road horses were judged this morning, and considerable dissatisfaction resulted, one man refusing to accept the second premium.

The domestic department is the feature of the exhibition in which the interest of the ladies centres, and at times, today, they have so thronged the exhibition hall that it was almost impossible to pass through it. The display of fancy work of all kinds is bewildering to the masculine mind, but the ladies declare that it is wonderful, one of the best ever made at an Orange county fair. The exhibition of decorated china is also very fine, and in the art department good work is shown.

Outside the entrance gates there is a a sort of wide open Midway, in which there are in operation many devices for transferring cash from the pockets of the unwary to those of the manipulators of the various games. It is, however, to be said to the credit of those attending the fair that few of them have tried to beat these gamblers at their own game, The gamblers say that the crowd is "no good" and that they aren't making enough to pay them for their trouble. One sharper said, last night, that "half an hour with the men who were here at the races was worth all day with people who came to see big pumpkins."

The paid single admissions, Wednesday, were 5,149. There were 600 scaeon ticket coupons taken and 4,200 school children were admitted. On the second day, last year, there were 4,467 admission tickets sold. Owing to the lower rate of admission the gate receipts for the day were not quite as large as they were last year.

Up to 2 o'clock this afternoon, the paid admissions were 5,600 and the crowd was then pouring into the grounds as rapidly as at any time during the day. At 3 o'clock 6,700 tickets had been sold. McMonagle & Rogers' fine exhibit which attracted much attention from visitors and which was praised by all who saw it met with equal favor in the eyes of the judges who awarded it five first premiums and fivespecial premiums. The awards were: First premiums on premium fruit flavors, fruit syrupu, Rogers' opera cologne, toilet preparawas and tractos, and specials on Italian

violet, perfumes, hospital supplies and vanilla beuns.

The races again proved to be an attractive feature of the fair. The 2:19 class was a very consistent race for four horses. They drilled sike notdiers, and kept in individual places splendidly. It resulted as follows:

2:19 Class, Pace; Purse \$300. Idemost, b. m., by Ideal.... Delsy J, b. m. Pie Lijero, ch. m. Mr. Fullerton b g. Time—2:19%, 2:18%, 2:28%. Alerich 1Gülett 4

The race for \$100 to the horse making nearest three minutes in a mile drew out nine starters. The four money winners and their time was as follows for three

-A reader of the ARGUS suggests that people, who have exhibits at the fair, that can in any way be used at Thrall Hospital, double them to that institution. Cake, bread, fruits and vegetables, canned fruits and jellies will be very acceptable and the Hospital is taxed to its utmost to provide for the soldiers, patients and nurses.

A RUNAWAY AT THE FAIR.

A frightened Horse Does Some Damage Before Being Caught.

William Bookstaver, of Scotchtown, drove to the fair grounds, Wednesday morning, and at noon took the bit out of the horse's mouth in order to feed it. In the evening, when getting ready to go home, he took off the bridle to replace the bit, when the horse broke away.

His little daughter and Miss Jessie, daughter of William Puff, of Scotchtown, had already taken seats in the wagon, and when the horse broke away it made a short turn, throwing both occupants out of the wagon. They landed on top of a pile of stones, and Miss Puff seemed to be seriously hurt, complaining of a severe pain in her side. She was, however, able to go home.

The runaway horse made a short circuit, and then brought the wagon to which it was attached against the fence, freeing steels from the vehicle. It then collided with the horse and carriage of Charles Clapham, of Bloomingburgh, knecking down the horse and upsetting the carriage. It seemed for a few moments as if Mr. Clapham's horse would be killed, for Mr. Bookstever's horse jumped on it several times. As it was, one of its hind legs was badly skinned, and the carriage, a new pneumatic-tired one, was badly damaged.

Mr. Bookstaver's horse then ran into a wagon belouging to Mr. Tuthill, of Goshen, breaking one of its shafts. The frightened animal was then caught.

Mr. Bookstaver's wagon was not much damaged, but his horse was badly cut about the hind legs and the harness was torn to pieces.

ENTERTAINED THE 13TH REGULARS

A Crowd in Waiting at the 0, and W. Station to Welcome the Soldiers-A Scacrous Lunch Provided-- Frading Limes for America. Soldiers Belighted With Their Wolcome.

The O. and W.'s special train, carrying four companies of the 13th Regular Infantry, arrived in this city, Wednesday night, at 10.20. There were fully two thousand people at the Wickham avenue station to meet the train, and when it relled in with Col. Smith and excursion agent W. W. Tiel waving their hats from the platform of the last car, a shour went up which awakened every sleeping soldier on the train.

The reception which Chief Higham and "Billy" Seeholzer had arranged for the regulars was a complete surprise to them. "Billy" Tiel wisely kept very quiet on the way up, and when the crowd began to yell the windows went up, and the faded bats from San Juan hill and Montauk Point were waved to the crowd.

The platform was crowded with people, and Capt. Veber had a passage way open to the middle doors of Seeholzer's restaurant, and through this gauntlet of extended hands the soldiers marched with lively steps.

Chief Higham, Capt. Veber, Asst. Chief | others who have used it." J. R. Mills Lorentz, Supt. Hopkins, Yardmaster Druggist, No. 2 Empire Bleck, North Ludington and Wm. Seeholzer devoted themselves to the men, and saw to it that they were well filled with sand wiches before they returned to the cars. Seehoizer's restaurant is just the place tor such an entertainment and when the men, headed by Col. Smith, had walked into the room and lined up on both sides of the counter, there were a dozen pretty girls to serve coffee to them and two generous sized bam sandwiches confronted each mau.

The soldiers disposed of twenty-four gallons of prime coffee, two gallons of ten and 800 sandwiches.

The DeWitt Drum and Fife Corps played several inspiring selections whilthe crowd cheered the men and just before their departure, played "Auld Lang Syne" with a vim.

Col. Smith is a particularly happy looking man, and there was great applanse when a young woman threw her erms around his neck and kissed him once for San Juan hill and once for Middle town and once more for herself. Several of the good looking privates also found kisses along the line. The girls were willing to swap kisses for buttons at any time. The fun kept up until 11:10, and then amid shouts and feminine squeals the train pulled out with the soldier boys, but their cheers for Middletown and its people will long ring in the ears of those present and amply repay for the effort made for the soldiers' comfort.

The companies on the train were D. F. and B, en route to Fort Porter, just outside of Buffalo, and E for Fort Niagara. Companies A, H, C and G of this regiment are now at Governor's Island. The men are all a rugged lot of fellows, and their mouth's stay at Montauk has

There were 645 men when the 13th went up that San Juan hill, and when the men were counted up afterward there were 108 of them killed or wounded, five of the eight captains being among the seventeen killed. The companies left behind a number of sick and wounded in the hospitals, and some of the boys on the train were too weak to go out for their coffee, and it was carried to them. The men with the mess sergeant, who rode in the box-cars with the supplies, were also looked after before the train

The merchants and others who so freely donnted articles needed were:

UNCLE SAM'S DOUBLE

He is a School Principal, John B Young by Name, and Lives at Davesport, Ia.

Uncle Sam's double lives in Davenport, la. He is John B Young, who has been superintendent of the spleudid public school system of Davenport for 20 years There is a striking resemblance between the superintendent and the man who is used to represent the United States in the pictures drawn by the political caricaturists. He has the same goatee, with smoothly shaven cheeks wrinkled by many smiles, while his mouth is firm and shows as great determination of char-

acter. If he were to wear the old white beaver that Uncle Sam usually has on his head and the trousers with straps he would look as if he had stepped from one of the popular cartoons of the day. As it is, the stranger who is introduced to Mr. Young is instantly struck by the striking resemblance, and if Uncle Sam bad not been drawn generations before Mr. Young's birth you would swear that the superintendent had been the model for the artists. Superintendent Young comes of a long line of American ancestry and is as American in every respect as he looks. He was born in New York state, graduating from Middlebury college in 1861. For seven years he was at the head of academies at Lawrenceville and Fort Covington. N. Y In 1868 he came to Davenport as superintendent of the school system of the city, and his record of 20 years' continuous service in that office is one that is believed to be unequaled in any other American city. His popularity in Davenport is said to be greater than that of any other man

FAMOUS OLD TAVERN.

It Stood on the Banks of the Mississippi, at Kaskaskia, Once a Town of Importance.

The accompanying photograph of the famous old Kaskaskia tavern was taken July 2, at the time of the building's destruction by the current of the Mississippi river.

The tavern was erected about the year 1806, by Col. Edward Sweet, a warrior of the revolutionary struggle. who won great distinction fighting on the British side. The colonel presided over the cabin, which bore the name of the Chenu house, but it was more

widely known as Col. Sweet's tavern. From the time the hotel was erected until 1840, says New York Truth, it had a reputation throughout the entire middle west territory, and the stories of the grand balls and great bunquets which were served in the tavern traveled far and wide, and even now those functions are talked of by the country folk in and about the fast-decaying Kaskaskia.

It was in April, 1828, when Gen. Lafayette was on his triumphal tour

OLD INN IN KASKASKIA (How It Looked at the Time of Its Recent Destruction)

through the United States, that he and a party of distinguished guests were banqueted in a most royal manner at the old tavern.

Beneath a great wreath of roses and laurel after the banquet, in this building, Gen Lafayette drank the health of the people of Illinois, and Gov. Coles made an address that won him a distinetive place among the orators of the early part of the century.

The tavern gendually went into decline when the business center of the state shifted from Kaskaskia, and it was finally abandoned.

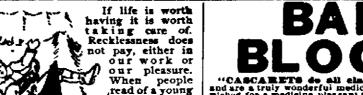

At last by one of those mighty movements which occur so often in the current of the Mr -- sippi, its foundation was undernancel and the old building went topy ing into the muddy waters -its history ended.

man who has been killed while performing some reck-less feat on a toboggan or at some other hazardous sport, their sympathy is mixed with surprise that any human being should thus care-lessly risk life.

There are thou-sands of men who

are recklessly risking their lives while they go about their common every day avoca-tions. They over-work, they do not take sufficient time from business or labor to eat or sleep or rest, or to care for their health or sleep or rest, or to care for their health. Outraged nature throws out danger signals, to which they pay no heed. They suffer from bilious or nervous disorders, from sick headache, giddiness, drowsiness, cold chills, flushings of heat, shortness of breath, blotches on the skin, loss of appetite, uncomfortable sensations in the stomach after meals, loss of sleep, lassitude and trembling sensations. These are the advance symptoms of serious and fatal maladies.

maladies.
All disorders of this nature are cured by Dr. Pierce's Golden Medical Discovery. It restores the lost appetite, gives sound and restores the lost appetite, gives sound and refreshing sleep, makes the digestion perfect, the liver active. It purifies the blood and makes it rich with the life-giving elements of the food. It is the great blood-maker and flesh-builder. It makes the body active and the brain keen. It is the best of nerve tonics. Thousands have testified to its merits. No honest dealer will urge upon you a substitute for the little extra profit it may afford.

The man or woman who neglects consti-pation is gathering in the system a store of disorders that will culminate in some serious and possibly fatal malady. GBESE ARE STUPID.

According to an Old Poultryman They Can't Stand a Rainstorm When Thirsty.

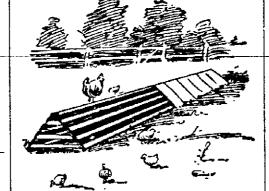

"Geese are peculiar," said an old poultry salesman in Manhattan mar-"Put them out in a rainsform when they have a good thirst on and they are liable to die. About ten years ago I was engaged by a firm to go out through the west and buy live geese and chickens. I bought ten car loads, out them in crates and started east. The geese were in the crates nearest the floor of the open car-that's the regular way to ship them-and on top of them were piled the chicken crates. "We got about ten miles from St. Jo-

soph, Mo., when the load on one of the cars sagged, and the whole pile of crates was spilled on the side of the track. In plling the crates on again the geese were placed on top. I knew was taking chances, because a rainstorm meant death to the geese, but there didn't seem to be any storm in sight, and I thought we could make St. Joseph and shift the load there. The train had only gone a short distance when a storm came up so suddenly that the rain was falling almost as soon as the clouds were noticed. The geese had been without water for some hours, and the moment they felt the rain they were stretching their necks through the openings between the slats and holding their bills open to catch the drops. Well, I got an old coat and laid it over as many of the crates as it would cover, so as to save as many as possible. Then I got a switch and tried to force the others to keep their heads inside the crates. They didn't mind the switch very much, and I had to give each one four or five good hits before it would pull in its head, and when I started on a new head the old one would pop up again. When we got into St. Joseph it was still raining, and every goose in the top crates with the exception of those under the coat was dead. Whether they died from drinking too much or from drinking while their necks were in an unnatural position I do not know, but every man who has handled live geese knows that a thirsty goose in a rainstorm in a crate is as good as dead. I've never told of this peculiarity about geese without being doubted. but you just ask any poultryman if it Isn't true."-N. Y. Sun.

CARE OF LATE BROODS.

How to Make Them Profitable an Push Them Rapidly to Bealthful Maturity.

Last year I raised 300 chicks, but none of them matured and grew so rapidly as the late batched September brood, and I think it partly due to their generous feeds of cracked corn. Finding that these September chicks were crowded from the feed boards whenever the older flocks were fed, I placed

COOP FOR FEEDING CHICKENS.

in their yard one of the coop runs, a triangular frame of laths, used earlier in the season to confine mother hens near their coop. I have a dozen of these runs. They are the length of a lath and allow little chicks free ingress and egress, while the mother can but put her head through the slots. The open end of the run, I placed against the yard fence and a dish of cracked corn was constantly kept inside which the larger chickens could not reach. The little fellows quickly learned, when hungry, to dart between the slats of this run and eat their fill, safe from the

greed of the grown flock. After the snow came, the run was placed in the henhouse, the space between laths increased to allow free passage of this half grown brood, and the dish of cracked corn constantly kept replenished. It has proved just the right food for this late hatched brood, but I doubt if it would be a healthy diet for chicks coming from the shell in hot weather.—American Agriculturist.

An Ideal Poultry Farm. One of the most complete poultry

farms is on the George Vanderbilt estate, Biltmore, in North Carolina. There is a main building of brick dividt**e** into office, incubator-room, feedroom, eggroom and two other rooms. The incubator-room has a capacity for 4,800 eggs. There are 28 double houses for the fowls, with large runs, fenced in with wire. Ducks and geese are provided for with four large buildings, meadow runs and a pond. On a beautiful little hill is a house where live the poultry men. This dwelling has all the modern conveniences. In connection with this regular plant fowls are also kept in eight different places on the estate, where they are allowed free range.

Food for Growing Turkeys. Young turkeys should now be far enough advanced to be beyond the danger stage, and they will thrive admirably on a range. To keep them in growing condition and induce them to come up every evening they may be given one meal a day, which should consist of cooked cake, composed of two pounds of corn meal, one pound of middlings, one pound of ground oats, ene pound of ground meat and half a aund of linseed meal. They will relish h a mess and will grow review.

ARMY LIFE IN HONOLULU

THE EDEN OF THE PACIFIC NOT A PARADISE FOR SOLDIERS.

The First Regiment's Busty Cump on t Lava Sed-Worse Than Camp Merritt or the Presidio-Pull Your, High Surf, Lunar Rainbows and Other Protty Sights-"Wally" Phillips Committed to An Asylum-Very Chesp Uniterms-Leaves of Absence Refused and the Nopes That Are Sullt on This Pact.

Special Correspondence Angus And Mencuny. Honolulu, Sept. 1, 1898 .- A great many changes have taken place in our camp since my last letter. On Tuesday we received orders to move from the race track to the lava beds at the foot of Diamond Head, the extinct volcano. Well, we did so, and are now quartered in a former thern-bush lot, with a fine brick-like, red dust bed to lie upon. The wind blows continuously during the day time and you can imagine the result. It is worse than Camp Merritt or the Presidic as far as wind and dust are concerned, but the soil is at least clean. The change was made more unbearable from the fact that the 1,200 men who arrived here on the Arizona are now occupying our old quarters.

Col. Barber kept his promise to move from the race track, which, although it is government property, is leased by the horsemen and they only allowed Col. Barber to occupy it while this place was being cleared of the thorn-bush. It took fifty men two weeks to do it and the horsemen were getting impatient. Maj. Gen. Merriam simply ignored them and marched his men to the government property and there they will remain ustil orders for future movements are reeived from Washington.

There are now more than 2,500 troops here and the remaining companies of our regiment are hourly expected. The lack of telegraphic communication with the outer world has much to do with the unsettled feeling of all. With that established, so that the men could know what is being done toward bringing the peace aegociations to a close, a much better feeling would prevail. I could fill several sheets with rumors as to our future, but what is the use?

After three weeks in Honolulu we are nearly all of the opinion that we don't want to locate here. The themometer is said never to get above 90° in the shade, and the average temperature during the Sarah Williams 2; fancy—I M Owen 1; year is 74. This may be so, but, as all of our work is done in the sun at a temperature of 120° or a little less, we do not get much benefit of the shade. The breezes blow almost continuously, but the dust raised thereby counteracts any cooling effect.

We are four miles from the business center of Honolulu and the fare on the antiquated, mule power railroad is ten cents each way and it takes an hour to make the trio.

The drinking water is not good. An artesian well is being sunk in our camp ground, with a wind mill as proving their opportunity.

We have been enjoying a full moon for the past few nights and the effect has high nearly all the time due, it is said to volcanic influence from the live volcances at Molakai, also to lumar influence. Whatever it is, the scene is a grand one. The suif in our vicinity breaks over a reef of coral, and when the tide is high the water is trurled far into the air, breaking into the spray and white caps twenty the fight in Last night the moon was particular, bright and a thousand men watched, he display until taps called them to the quarters. There were several lunar rain pows during the evening, forming a perfect are from horizon to horizon,—as pretty a sight as one for this sale, 50c a yard.

could ever see. Scarcely a day passes that we do not have several rainbows of marvelous brilliancy. The showers only last a few minutes, and seem to make no impressign on the dust or vegetation, and it is only by irrigation that the latter is kept alive at this season. The rainy season does wonders'toward recuperating vegetation, so if is said, and patches which Martha—C C Corby 1, C R C Martin 2 are now in and bare become a beau-Massasoit—C C Corby 1, C R C Mas in green in few days.

Very little hay is raised, and the principal tood for horses and cattle is a bean winch grows on tires. Large orchards Moore's Early-C R C Mastin 1, C C of these trees are found all over the island, planted as we would plant a peach or apple orchard. The crop is continuous, and there is a name for the bean, but in the absence of a Hawanan dictionary I will not attempt it. In fact it is next to impossible to get a native to pronounce or spell a word the second turie.

The men who were quarantined for measles were returned to the street toda . auer ten days' confinement. Among then were Clerk Decker, Joe Beakes, Herry Steedman, Will Chambers, Sam-Gausman, Medrick and Talcott. Albert Conkling's was the only case of the dis-

case and he is getting along finely. Poor "Wally" Phillips was, yesterday, temporarily committed to the insane asylum here until some disposition of his case can be made.

We have been given an issue of white uniforms. They are made of pocket lining and cost \$2.07 a suit. We were also furnished with a brown suit of overalls (coat and trousers) for working in the fields and ditches.

The troops which passed through here did not leave a very favorable impression upon the inhabitants and the "New Yorks" have had an uphill fight for social recognition from the business element. Some of the trough simply broke leose" and our path with the natives has not been an easy one. Col. Barber has purchased two sprinkling carts and the annoyance from dust will

soon be a thing of the part.

Sept. S .- Lieut. Wallace, who has sent in his resignation, and had applied for thirty days' leave of absence from Sept. lst, had expected to embark for home," to-day, as Col. Barber had approved the application. To the lieutenant's great disappointment Gen. Merriam refused bis endorsement. Lieut. Terry, of Kingston, who had applied for leave at the same time, was also turned down. They will have to wait until their resignations are approved at department headquarters in Washington in the usual way, which will take a month or more. Some think that Gen. Merriam refused leaves of absence because we are not to be kept here long and we look upon it as another straw moen which to build our hopes of an early discharge, and we are catching at all the straws in sight. Our last mail came by way of Victoria, B. C., and as yet we have seen no late San Francisco papers. There may not be another mail out of here until Sept. 14, when the regular steamer Alameda will touch
